FEATURED REFERENCE BOOKS

Each book in the Reference Shelf series offers extensive exploration of a pressing topic in modern society, in a compilation of notable articles from respected publications, abstracts, of 20 to 30 additional articles, and a bibliography of other sources.

Our library has several subject areas to choose from and you will find them in the reference section on the 2nd floor.

DON'T BE SHY, GIVE US SOME FEEDBACK!

We are conducting a survey of our reference service, starting Monday, October 5.

If you come to the reference desk and work with a librarian or Help Desk student, you may be asked to fill out the short, online survey at your convenience. It should take no more than 5 minutes. We're eager to hear from you about the quality of our service! Thanks in advance for your helpful feedback.
